ABOUT ME

Second-year B.Tech Computer Science student at KL University with a 9.91 CGPA, building a strong foundation in Java, Object-Oriented Programming, Data Structures and Algorithms, and software engineering fundamentals. I have hands-on experience developing responsive, AI-assisted full-stack applications using React, integrating APIs, and working with Git/GitHub-based development workflows. As an active open-source contributor, I have merged pull requests involving frontend fixes, UI improvements, and automated testing. I regularly participate in hackathons, technical events, and workshops, where I collaborate in teams to build and deliver practical solutions. Currently expanding my skills in Python, SQL, MongoDB, APIs, and modern AI-assisted development tools, with a strong interest in learning across the software development lifecycle.

EDUCATION

KL University
B.Tech Computer Science
2025 – 2029 (CGPA 9.91)

Valley Oak Junior College
12th - 98.2 % (TS IPE)

T.I.M.E. School
10th - 95% (CBSE)

SKILLS

Programming Languages: Java, JavaScript, Python (Exploring)
Core CS: Object-Oriented Programming, Data Structures & Algorithms
Frontend: HTML, CSS, React
Databases: SQL (Exploring), MongoDB (Exploring)
Backend & APIs: REST APIs (Exploring)
Developer Tools: Git, GitHub, VS Code, WordPress.org
AI-Assisted Development: Prompt Engineering, Gemini, ChatGPT, Lovable, Claude, Antigravity

CERTIFICATIONS

- CS50 Introduction to Programming With Python
- Microsoft UX Design
- ChatGPT Vanderbilt University
- Gen AI Fundamentals : IBM
- Google Prompting Essentials
- Linguaskills : Cambridge (C1 Score)
- Kuchipudi Certification - SPTU
- Senior Diploma 2 Kuchipudi : Pracheen Kala Kendra

ADDITIONAL ACHIEVEMENTS

- Guinness World Record : Part of the Largest Kuchipudi Dance Lesson (24th Dec, 2023)
- Performed in Tirumala Naadaneerajanam (30th Aug, 2023 and 10th Feb, 2026)
- MLH Hacktoberfest completionist – 2026
- Academic Topper Award in B.Tech 1st year – 2025-26
- Most Utilized User of Library Award - 2026

SAI KEERTHANA SATHYAVADA

EXPERIENCE

- **Project Seal India – Handshake AI**

Contributed 3 prompts as a freelancer
July 2026

- **EIPL Cornerstone Community Website**

Currently collaborating under senior developer in making a gated community's website in **WordPress**
September 2026 to present

Volunteer Experience

- **Hacktoberfest 2026**

Hosted Prison Break – Hack Day and Hackathon
Role : Event Host, organizer and coordinator

OPEN SOURCE CONTRIBUTIONS

- Merged pull requests across **Google Shaka-Player (GSOC), freeCodeCamp**, Cake.Build Website, CommitPulse **(GirlScript Summer of Code)**, Toolport, and Kana Dojo.
- Resolved issues, improved documentation, and enhanced frontend functionality across multiple repositories.

PROJECTS

Individual Projects

- Mero Pyaaro Braj Mandal (HTML, CSS, JS)

The entire Braj Dham in one website

- Brick Blitz Arcade (Java, OOPS & DSA)

Classic arcade-style game, with collision detection and game-state logic - DSA

- CineVerse (Java, OOPS & DSA)

DSA based system for organizing movie information

Collaboration Projects

- EventScout – (Full Stack)

ML powered event discovery & ranking platform built with Next.js, FastAPI, Gemini AI, MongoDB, web scraping and python backend.

- AlgoVision - KriVee (Full Stack)

Full-stack, AI-assisted platform, to understand DSA visually. Vibe Coding Project

- Velora - AI Search Engine (Full Stack)

Built an AI-powered search engine which is powered an LRU Cache. Uses java backend and data structures to simulate the LRU cache.

- Time Waste Pro (HTML, CSS, JS, React)

A series of 33 games built entirely on JavaScript and React JS
